The Elegant Qibla Watch

Q8

This stylish timepiece with sapphire crystal glass and stainless steel case and strap and with dual displays has the most useful salat-related functions, including daily prayer times, azan alarms, and automatic Qibla direction 'which you can see it through the watch hands'.

Q8PRO

Qibla Solar Watch

The First Qibla Watch That Is Solar Powered

This eco-friendly innovative Qibla watch, and beside the features it has that are common with the Q8 watch, Q8PRO is solar-powered; it has a Japanese solar charging system and a rechargeable battery; therefore, by using this watch, you will be contributing to the big change of going green. These features, combined, make it a unique and special timepiece.

The combination between the salat-related functions and the eco-friendliness of the watch makes you feel more peaceful when you wear it like no other watch.
